AMENDMENT
U.S. Appln. No. 09/599,002

IN THE ABSTRACT:

Please insert the Abstract as indicated below:

ABSTRACT

A method of disease prognosis which involves determining the genotype of a human or non-human mammal subject for at least one Fc receptor, and identifying whether the determined genotype corresponds to a benign or non-benign prognosis for a disease selected from multiple sclerosis, myasthenia gravis, diabetes mellitus, cerebrovascular diseases, artherosclerosis, and Addison's disease.
